

# Calling experts!

## **Be part of a growing group of primary and secondary experts**

In light of the new National Curriculum 2014 it is important as teachers we feel supported. If you feel that you can support local Southend teachers in some way with your expertise or knowledge in a new area that has been introduced anything from the stone age, computing to Evolution! We are looking to feature all primary and secondary phrases, and the database will be sent out to Southend schools and uploaded onto the SaLT website during the Spring Term 2014.

If you think you can offer Southend teachers support with your knowledge in a particular field then please contact: [Christine.farrell2@gmail.com](mailto:Christine.farrell2@gmail.com)

**Share practice, share knowledge**  
**Raise practice, raise outcomes**

**Like us on Facebook, Southend a learning town**
