

Assessment and progression in primary science (by invitation)

Evidence shows that effective Assessment for Learning (AfL) leads to raised attainment. Now that formal recording of levels has been removed you need to understand how to make judgements about children's achievements and progress.

The course

Examine how to identify ways to integrate and embed assessment practices into your science teaching.

Outcomes

You'll gain knowledge of a range of AfL strategies that effectively promote children's learning. You will acquire a deeper understanding of progression by learning to confidently assess children's learning in science and identify next steps.

"Excellent subject knowledge. Well planned and led with enthusiasm and clarity. Fully met my expectations and more."

John Letts, 2016 participant

Date: Weds 3rd October 2018, 4 – 6pm

Pricing: FREE for SETSA invited schools

Location: Westcliff High School for Girls,
Kenilworth Gardens,
Westcliff-on-sea SS0 0BS

What are you looking for?

PROFESSIONAL DEVELOPMENT

We offer high-impact professional development across the UK, and online, based on the latest developments in both pedagogy and STEM subjects. We can also tailor professional development to your school's specific needs with our bespoke CPD.

CAREERS EDUCATION

As well as a host of excellent resources on our website including the Careers Toolkit, we also run the STEM Insight programme to give you a unique experience in industry or university through inspiring placements.

INSPIRATION

We've got a host of ways to help you inspire your students: why not bring a STEM Ambassador into your school to talk about STEM subjects and careers, or start a STEM Club to build confidence and teamwork skills?

COMMUNITY

Share your ideas and challenges with teachers and technicians through our online groups and at our networking events. And join us on Twitter - we have over 20,000 like-minded educators following us.

**STEM
LEARNING**
National STEM Learning
Centre and Network

RECOGNITION

Our recognition schemes and awards allow you, your department and school to showcase the impact you have on your students and colleagues.

RESOURCES

We have over 38,000 quality, STEM teaching resources, available online or at our centre. You can also browse teacher-made resources and submit your own.

STEM Learning operates the National STEM Learning Centre and Network, alongside other projects supporting STEM education
